WHAT EXACTLY IS A "FULL DENTAL VISIT?"

The CMOHS dentists will automatically do exams, cleanings, fluoride treatments, x-rays, sealants, and fillings. When more extensive dental care is needed, the dentist will make a referral. It is then up to the parent to seek further care. If you have any specific preferences (i.e. "no fluoride") please make a note on the form.

HOW MUCH DOES IT COST?

Vineyard Smiles dental services are not free. Once we verify eligibility, we are able to bill the following insurance carriers directly: Children's Medical Security Plan - MassHealth - Delta Dental - Blue Cross Dental - AND MORE! Just ask!

WHAT IF I HAVE NO INSURANCE?

If you do not have dental coverage, the dentist will do a basic exam and then send your child home with a list of the care needed and the cost of each service. If you decide you want these services, you must pay in advance (or on the day) of treatment. These basic exams typically happen on the first day the dentist is in school - if payment is received the care is given the following day. If you need help getting insurance, please call the Vineyard Health Care Access Program at 508-696-0020.
